

Kim's WELCOME

Welcome to Orlando!

Over the next few days you'll be introduced to an amazing group of 53 young women who will inspire us all to be our very best, challenge us to get more involved in social causes and persuade us to believe the impossible is possible. Each contestant is not only on her own mission to win this competition but is also striving to build a strong foundation for her future success.

At this same time last year, Jeanette Morelan of Wisconsin was crowned Miss America's Outstanding Teen 2010 and has since shown how the "The Power of One" can be a very powerful force indeed. She's touched millions of lives across the nation, traveled to 24 states and even toured the private quarters of the White House - a home she plans to occupy herself in 2040 as President of the United States. She continues to prove that anything can be achieved with a winning combination of hard work, tenacity, faith and a positive attitude.

Enjoy the pages of this Competition Magazine as you learn more about Jeanette and each of the deserving 53 young women competing for this year's MAOTeen title and the more than \$150,000 in college scholarships. And I hope you'll also get to know the many sponsors and colleges who give so generously to turn today's possibilities into tomorrow's realities for these young women.

Have a wonderful week in sunny Orlando!
